

SAFE TECHNOLOGY FOR SAFER WORKING ENVIRONMENTS

Safe to operate 24/7, far-UVC presents the **best** disinfection solution for your business, and ensures elimination of 99.99% of airborne bacteria and viruses.

BENEFITS

- Round the clock, safe, unobtrusive protection
- Destroys pathogens such as viruses, bacteria, mould and spores in everyday spaces
- Impenetrable to the outer skin layer, Far UVC will not damage any living cells in the human body
- Cleanses the air as well as surface contaminants
- Actively decontaminates occupied working environments - meaning no business downtime
- Adaptable solutions include lamps, wands, and walkthrough gates
